

Georeferencer pricelist

Klokant Technologies GmbH offers an online service Georeferencer. It runs on a cloud infrastructure and is closely integrated with customer's website with an API and widgets.

Initial configuration + 1 year of service

2950 CHF*

Following years are charged according to the total number of processed maps. This service fee includes hosting of metadata, login information, the KML for Google Earth, thumbnails, complete history of editing, accuracy calculations and exports for download.

Item	Price
< 1000 (up to one thousand maps)	CHF 420 / year
< 10000 (up to ten thousand maps)	CHF 840 / year
< 35000 (up to thirty five thousand maps)	CHF 1440 / year
over 35000 maps	individually
New maps batch upload	CHF 450
Custom design (default orange)	CHF 1360
Additional services (hour rate)	CHF 170

Optional hosting service for the maps in JPEG200 format using IIIF protocol is available on the servers of Klokant Technologies:

Disk space	30 GB	100 GB	1 TB	2 TB	3 TB
# of images	15,000	100,000	1,500,000	3,000,000	4,500,000
Price / year	CHF 790	CHF 1190	CHF 2290	CHF 3390	CHF 4490

Prices are listed in Swiss Franc (CHF)

* Sold as a package (up to one thousand maps) with 1st year of the service and includes configuration, import of the data batch and initial testing. The input metadata must be provided exactly as described at: <http://help.georeferencer.org/metadata>. Customers are provided with a sample spreadsheet. Delivered in the default orange design. If required, customisation of the service is charged additionally with the hour rate.

This price list is valid from 1.1.2014 until further notice.
